# REVA HACK Flugel 2021

## Elevator Pitch

**Team Name : World of Dreams**

Vaibhav Singh Tomar

## Project flugel

12<sup>th</sup> November, 2021

### Overview (What problem are you trying to solve)

Not so long ago, the office was the only place you could work. But when smartphones and tablets came, the only thing holding us back from getting work done anywhere, any time was having access to our d

And here we are to overcome that problem,

### Goals (How are you solving the problem stated)

1. Create a software for syncing system files using the inbuilt linux features so that you donot need to download any extra software

## Working Methodology (Summary on how your project is going to work/solve the problem stated)

Just download the files from the above website link provided (which is basically my github ) account where I have saved my files.

Then extract the folder and edit where you want to backup the system files in the code  
And then execute the code and you're done.

## Specifications (Tech Stack Used - Hardware + Programming Languages)

Major Language used in this : - Shell Scripting

Language for presenting :- HTML, CSS , Javascript and markdown language

Operating system required :- Linux
